

COVID-19 RETURN TO COMPETITION GUIDELINES

MOTORSPORT EVENTS

The following lists the operational adjustments that motorsports events may want to consider as they return to competition during the COVID-19 pandemic. It is important to note that many of these considerations may change as government guidelines, industry standards, and guidance from medical professionals evolve. As you develop your reopening plans, it is critical that you ensure that they are compliant with federal, state, and local laws and government regulations. Additionally, it is always a good idea to review your plans with your legal counsel.
